

Architectural Designer Job Opening- Bozeman, Montana

Architects Alaska, Inc. is seeking to add a team member to our Bozeman, Montana location. AAI has offices in Alaska and Montana with clients that reach each corner of the United States. Projects range from small renovations to large scale new facilities covering a portfolio of projects within the commercial, community, education, healthcare, housing, industrial, worship and senior living project sectors.

The Architectural Designer role is an opportunity to join an established Architecture, Planning and Interior design firm and create everyday, while working alongside the lead designers of the firm to hone your craft. You will have opportunities to follow the concept through to completion of construction, a complicated process that fully illuminates the design process as a balancing act of honoring owner goals, addressing site and climatic opportunities and constraints, meeting and possibly enhancing functional requirements, maintaining code compliancy, addressing sustainability, and discovering aesthetic opportunities. You will be a critical member of our network of design professionals who value team collaboration, fresh insight, and innovative problem solving. This position is for a recent graduate Architect/Designer with 2-7 years of experience. Salary commensurate with experience. Please submit resume with limited images, along with a brief cover letter.

Responsibilities

- Production of architectural drawings and specifications and coordinate design consultant work.
- Research products/materials and coordinate with manufacturers to develop details.
- Source architectural products and samples.
- Develop technical details, particularly pertaining to envelope weather tightness and longevity.
- Work with contractor to resolve issues encountered in construction process.

Skills

- Proficiency in Revit, AutoCAD, Adobe Creative Suite, Bluebeam, MS Office and Outlook.
- Experience with Enscape, Sketchup and other modeling software.
- Knowledge of building codes, planning and zoning principles and practices
- Experience working directly with clients, contractors, consultants and vendors. Ability to effectively communicate with all members of the project team, both verbally and in writing.
- The ability to handle multiple deadlines and tasks simultaneously and willingness to learn.

Benefits

- Medical / dental insurance (+ options for vision, life, disability)
- Vacation / personal time
- 401k matching plan (eligible after 1 year of employment)

Qualifications

- Bachelor's degree in Architecture or related design field
- Master's degree preferred
- Pursuing Professional Licensing preferred
- Professional Architecture office experience: 2 years minimum (Required)

COVID-19 considerations:

- AAI has an in-office mask policy, an in-action prevention plan, an active safety committee, flex hours, and work-from-home opportunities.
